### **COLLINS BUS CORPORATION TO PRESENT AT PROPANE ENGINE FUEL SUMMIT**

Collins Bus Corporation announced today they will be presenting information on the development of the Collins NexBus Propane Type-A school bus at the Propane Engine Fuel Summit, March 3<sup>rd</sup> and 4<sup>th</sup> in Washington, D.C. As the exclusive manufacturer of certified propane powered small school buses, Collins will provide information on the development and production of this new bus. Kent Tyler, President of Collins, will participate in a panel discussion that will broadcast at 10:45 on Thursday, March 4<sup>th</sup>. Moderated by Mike Taylor of Heritage Propane, Inc., the discussion will focus on the use of propane engines in school bus operations. Tyler's presentation will emphasize the advantages of propane propulsion in small (Type-A) buses.

The complete summit will provide information from leading propane manufacturers of vehicles, dispensing equipment, fuel tanks and turn-key operators that will show transportation managers how propane can offer sound economic and environmental solutions for their fleets. Additionally, government officials will explain how the federal government is helping with incentives for propane, a true clean fuel alternative.

Tyler said, "As the leader in the Type-A school bus industry, we are excited to be partnering with leaders in the propane industry to bring another innovative product to the school bus market. Our customers want clean fuel alternatives and Collins Bus Corporation is proud to offer the NexBus Propane as a solution for their small bus needs."

The panel discussion and other portions of the summit will be available via a live webcast from the TV Worldwide Studios. For more information, and to register for the summit, go to [www.propaneenginefuelsummit.com](http://www.propaneenginefuelsummit.com).

#### **About Collins Bus Corporation**

Collins Bus Corporation, a subsidiary of Collins Industries, Inc., markets three brands of Type-A buses throughout North America (Collins, Mid Bus, and Corbeil). They market advanced technology solutions such as Hybrid-Electric and Propane alternatives under the NEXBUS brand. They have the largest distribution network of any Type-A bus company with over 70 dealers in the United States and Canada. Collins Industries, Inc. is also a leading manufacturer of ambulances (including medical attack vehicles, rescue vehicles and fire emergency vehicles), the nation's second largest manufacturer of terminal trucks and a leader in the road construction and industrial sweeper markets.
